

1. Premature newborn baby. Concept. Causes.
2. Early anemia of premature babies: clinic, diagnosis.
3. A newborn baby. Signs of full-term and prematurity.
4. Transient circulation of the fetus and newborn.
5. Borderline conditions (physiological decrease in body weight).
6. Borderline conditions: physiological jaundice.
7. Borderline conditions: physiological dysbiosis.
8. Borderline conditions: physiological hypo- and hyperthermia.
9. Acute hypoxia of the fetus and newborn. Causes.
10. Assessment of severity (Apgar scale).
11. Intrauterine growth retardation. Causes.
12. Intrauterine growth retardation. Classification.
13. Infectious diseases of the skin and subcutaneous tissue in newborns: vesiculopustulosis. Etiology. Clinic. Differential diagnosis. Treatment. Prevention
14. Infectious diseases of the skin and subcutaneous tissue in newborns: pemphigus newborns. Etiology. Clinic.
15. Purulent-inflammatory diseases of the skin and subcutaneous fat in newborns (exfoliative dermatitis of Ritter). Clinic. Treatment.
16. Purulent-inflammatory diseases of the skin and subcutaneous fat in newborns (phlegmon of the newborn). Clinic. Treatment.
17. Infectious diseases of the umbilical wound and umbilical cord: omphalitis. Clinic. Diagnostics.
18. Jaundice of the newborn, classification.
19. Jaundice of the newborn. Features of the stages of bilirubin metabolism.
20. Consequences and complications of hyperbilirubinemia in newborns. Intensive therapy.
21. Hemolytic disease of the newborn. Clinic.
22. Hemolytic disease of the newborn. Diagnostics. Differential diagnosis.
23. Pneumonia in newborns. Clinic. Diagnostics.
24. Intrauterine infections of the fetus and newborn. Toxoplasmosis. Clinic. Diagnosis.
25. Intrauterine infections of the fetus and newborn. Cytomegaly. Clinic.
26. Intrauterine infections of the fetus and newborn. Herpes. Clinic. Treatment.
27. Intrauterine infections of the fetus and newborn. Rubella. Clinic.
28. Sepsis of the newborn. Clinical forms.
29. Sepsis of the newborn Diagnosis.
30. Sepsis of the newborn. Etiology.
31. Features of phosphorus-calcium metabolism in children and its regulation. The daily need for calcium and phosphorus at various age periods.

32. Rickets. Clinic.
33. Rickets. Diagnostics.
34. Rickets. Treatment and prevention.
35. Hypotrophy. Clinic.
36. Celiac disease. Clinic.
37. Celiac disease. Diagnostic Methods.
38. Syndrome of intestinal absorption in children. Lactose deficiency. Clinic.
39. Paratrophy. Causes. Diet therapy.
40. Early diagnosis of CHD in children. The optimal timing of surgery.
41. Spasmophilia. Etiology. Differential diagnosis.
42. Spasmophilia. Clinic.
43. Congenital heart defects with cyanosis. Diagnostics
44. Congenital heart defects with cyanosis. Clinic.
45. Sepsis. Clinic. Diagnostics.
46. Sepsis. Treatment.
47. Disaccharidase deficiency. Clinic.
48. Exudative diathesis. Clinical manifestations.
49. Exudative diathesis. Treatment, prevention.
50. Neuro-arthritic diathesis. Clinic.
51. Neuro-arthritic diathesis. Diagnostics. Differential diagnosis.
52. Neuro-arthritic diathesis. Treatment.
53. Lymphatic-hypoplastic diathesis. Clinic.
54. Lymphatic-hypoplastic diathesis. Differential diagnosis, treatment.
55. Spasmophilia. Emergency care for convulsive syndrome.
56. Acute pneumonia in older children. Classification.
57. Acute pneumonia in older children. Clinic. Treatment
58. Pleurisy. Clinic. Diagnostics.
59. Anemia of deficient origin (vitamin-protein). Etiology.
60. Anemia of deficient origin (iron deficiency). Clinic.
61. Anemia of deficient genesis. Treatment. Prevention
62. Hemophilia. Clinic.
63. Hemophilia. Laboratory diagnostics. Differential diagnosis.
64. Hemorrhagic vasculitis (Scheulen-Genoch disease). Clinic.
65. Hemorrhagic vasculitis. Differential diagnosis.
66. Hemorrhagic vasculitis. Treatment.
67. Hereditary hemolytic anemia. Classification.
68. Acquired hemolytic anemia. Classification.
69. Bronchitis. Clinic. Diagnostics.
70. Bronchiolitis. Clinic.

71. Bronchiolitis. Diagnostics. Differential diagnosis.
72. Bronchial asthma in children. Clinic.
73. Bronchial asthma. Diagnostics. Differential diagnosis.
74. Bronchial asthma. Treatment.
75. Acute leukemia: clinic, diagnosis
76. Pyelonephritis. Clinic. Diagnosis.
77. Pyelonephritis. Treatment.
78. Glomerulonephritis. Etiology. Clinic.
79. Glomerulonephritis. Differential diagnosis.
80. Nephrotic form of glomerulonephritis. Clinic. Treatment.
81. Acute renal failure. Diagnosis. Differential diagnosis.
82. Acute renal failure. Treatment.
83. ARF. (acute rheumatic fever ) Clinic.
84. ARF.(acute rheumatic fever ). Diagnostics. Differential diagnosis.
85. ARF. (Acute rheumatic fever) Treatment.
86. Acquired heart defects. Classification
87. Acquired heart defects. Clinic.
88. Biliary dyskinesia. Clinic.
89. Pericarditis. Etiology. Clinic.
90. Pericarditis. Diagnostics. Differential diagnosis.
91. Endocarditis. Etiology, clinic
92. Treatment of an attack of paroxysmal tachycardia.
93. Non-rheumatic carditis. Etiology. Classification.
94. Non-rheumatic carditis. Clinic. Treatment.
95. Clinical characteristics of hypertensive crisis in children, especially its course, intensive care.
96. Vegetative-vascular dystonia according to the vagotonic type. Clinic. Diagnostics.
97. Vegetative-vascular dystonia of the sympathicotonic type. Clinic. Diagnostics.
98. Vegetative-vascular dystonia. Etiology. Classification.
99. Non-rheumatic carditis in older children: classification, clinic.
100. Immunodeficiency conditions. Classification.
